“ I worked with Dr. Weresch as his medical assistant at Pacific Medical Center's in Seattle for many years. There was never a dull moment. He always made us laugh. He loved his patients and was very caring and giving to them. Often visiting them at home when they were too ill to come into the clinic. He gifted Mariners baseball tickets to a young patient who had never been to a baseball game in his life and even bought a ticket to one of our patients a plane ticket to her home country, Africa so that she can be with her family in her last days. He used to say that I reminded him of Elvira...too funny.
He will always be in my memory. Rest In Peace Dr. Weresch.
